INDEX OF VOLUME 84 (2000)

The format of the 2000 *Bulletin* index consists of titles, authors, and keywords. Beginning at the left, column one references a regular *Bulletin* article (BU) or a *Bulletin* abstract (BA). Column two indicates the volume and issue numbers (8402 = volume 84, issue number 2). Column three gives the page number. Column four indicates whether the entry is by title (T), author (A), or keyword (K). The fifth column is the entry itself. Please note that this index does not show multiple authors in any one listing; each author is listed separately.

A complete index of authors and titles from 1917 through 2000 is available in digital format from Datapages, Inc., P.O. Box 979, Tulsa, Oklahoma 74101.

BA 8406 871 T 1985 Ross Store explosion and other gas ventings, Fairfax District, Los Angeles
BU 8407 1062 T 1999-2000 AAPG international distinguished lectures; abstracts
BU 8409 1380 T 2000 AAPG Eastern Section meeting; abstracts
BU 8406 856 T 2000 AAPG Pacific Section and Western Region Society of Petroleum Engineers meeting; abstracts
BU 8408 1235 T 2000 AAPG Rocky Mountain Section meeting; abstracts
BU 8411 1877 T 2000-2001 AAPG distinguished lecturers; abstracts
BA 8407 1064 T 3-D analog modeling of releasing and restraining stepovers in strike-slip fault systems
BA 8406 900 T 3-D analysis leads to an injection strategy designed to optimize volumetric sweep; Cymric Field, California
BA 8411 1871 T 3-D architecture in turbidite systems; integrating digital photogrammetry, outcrop geology and geophysical data in the Ross Formation, County Clare, West Ireland
BA 8409 1415 T 3-D carbonate model for stratigraphic prediction
BA 8409 1415 T 3-D fluvial model for stratigraphic prediction
BA 8411 1876 T 3-D geological model of permeability in a deep-water sandstone, East Brae Field, North Sea
BA 8411 1864 T 3-D geometry and kinematics of the Nuncios detachment fold complex in the Sierra Madre Oriental, Monterrey Salient, Mexico
BA 8409 1460 T 3-D image processing techniques applied to carbonate reservoirs
BA 8406 869 T 3-D modeling in a complex structural and stratigraphic environment, Huntington Beach Field, California
BU 8406 805 T 3-D restoration of complexly folded and faulted surfaces using multiple unfolding mechanisms
BA 8408 1239 T 3-D seismic based definition of fracture-related production trends in tight gas Mesaverde sandstones, San Juan Basin
BA 8409 1438 T 3-D seismic imaging and interpretation of thin gas sandstone reservoirs using multi-attribute analysis on post-stack and AVO data, offshore SE Sumatra, Indonesia
BA 8408 1239 T 3-D seismic reveals contrasting reservoir styles at Dakota and Paradox levels, Ute Dome, New Mexico
BU 8408 1095 T 3-D visualization and isochore analysis of extensional diapirs overprinted by compression
BA 8406 878 T 3D and 4D seismic imaging in the Coalinga Field, Fresno County, CA
BA 8410 1688 T 3D computer simulation of carbonate depositional facies distribution and productivity rates using continuous set theory to mimic geologists' reasoning
BA 8409 1414 T 3D geometry of inversion structures
BA 8409 1450 T 3D petroleum systems modelling; bridging the gap between basin and reservoir scale modelling; examples from offshore Western Australia
BA 8409 1444 T 3D seismic in field development; a few examples from Indian basins
BA 8409 1446 T 3D structural modeling of the Kutubu oil fields, PNG
BA 8407 1064 T 4-D analysis of extensional fault systems in rift basins
BA 8409 1411 T 4D migration pathway analysis in the Vulcan Sub-basin, Timor Sea
BA 8406 871 T A case study in community relations
BA 8409 1477 T A case study in the integration of technical and non-technical petroleum information
BA 8409 1428 T A case study on using seismic inversion, 90 degree phase shifted seismic data and geostatistical simulation in the Bayu-Undan Field
BA 8410 1689 T A comparison of two late Pleistocene shelf edge deltas (Indonesia and Gulf of Mexico); stratigraphic architecture, systems tracts, bounding surfaces, and reservoir potential
BA 8409 1495 T A comprehensive evaluation of the exploration potential of the offshore Sibolga area, west coast Sumatra Island, Indonesia
BA 8409 1467 T A geomechanical model of the Arcabuz-Culebra field reveals stress magnitude and orientation changes due to production
BA 8409 1498 T A geophysical model and the subsurface geology at the Ulubelu geothermal area, Lampung, Indonesia
BA 8409 1398 T A GIS database for deep-water clastic reservoirs; organization and applications
BA 8409 1511 T A history of multiple periods of petroleum migration and accumulation in the Tazhong Uplift, Tarim Basin
BA 8406 857 T A hybrid streamtube simulator using a semianalytical method
BA 8411 1873 T A hydrogeochemical characterization of acid mine drainage using secondary mineral and solution compositions, Alta Mine, Colorado mining district, MT
BA 8406 904 T A look at the "roots" of some key ideas, concepts and technologies used in petroleum exploration and production
BA 8410 1678 T A method for predicting sand thickness from 3-D seismic, Upper Jurassic "Frisco City Sand", Monroe County, Alabama
BA 8406 872 T A method of integrating capillary pressure and relative permeability data into a fullfield numerical simulation of main body "B" reservoir, Elk Hills Field, California
BA 8409 1397 T A methodology to build a 3D geological model of reservoir from well data using seismic information
BA 8408 1243 T A model for 21st century geoscientists as high performance leaders in the global energy marketplace; liberating beliefs, great expectations, and elegant solutions
BU 8403 314 T A natural analog for a fractured and faulted reservoir in dolomite; Triassic Sella Group, northern Italy
BA 8409 1491 T A Neogene-Recent tectonic model for the Timor Sea area, offshore Australia; geomechanical implications for charge, trap and retention
BA 8409 1487 T A new approach to predict log properties from seismic data using multiple seismic attributes and neural networks
BU 8401 12 T A new geochemical-sequence stratigraphic model for the Mahakam Delta and Makassar slope, Kalimantan, Indonesia
BA 8406 902 T A new methodology for assessing the impacts of small-scale solvent supply variations with the Prudhoe Bay miscible flood
BA 8406 902 T A new model for forecasting rate and genetic algorithm for the parameters estimation
BA 8409 1516 T A new overpressure-generated mechanism; uplift, in Tarim Basin
BA 8409 1399 T A new saturation equation for thinly laminated formations
BA 8409 1496 T A new top-down approach to evaluating prospects with dependent layers and compartments
BA 8406 903 T A Newton-Raphson iterative scheme for integration of multiphase production data into reservoir model
BA 8409 1480 T A novel application of nuclear magnetic resonance and formation tester data for the determination of gas saturation in Pretty Hill Sandstone reservoirs, onshore Otway Basin
BA 8406 863 T A permanent 3-D VSP array for time-lapse reservoir monitoring at Lost Hills, California
BA 8409 1473 T A quality-controlled hydrodynamic database for the NW shelf of Australia
BA 8409 1403 T A quantitative analysis of seismic attributes for prediction of reservoir parameters using 3-D seismic data in a gas bearing deltaic sequence, Mid Tapti Field, west coast offshore, India
BA 8410 1689 T A re-evaluation of the Hackberry; new life for a comatose trend
BU 8404 545 T A reaction-transport-mechanical approach to modeling the interrelationships among gas generation, overpressuring, and fracturing; implications for the Upper Cretaceous natural gas reservoirs of the Piceance Basin, Colorado
BU 8408 1129 T A review of Tertiary brown coal deposits in Australia; their depositional factors and eustatic correlations
BA 8409 1452 T A sequence stratigraphic approach to reservoir characterisation of the Birkhead Formation, Gidgealpa South Dome, Eromanga Basin, Australia
BA 8406 894 T A simple mathematical model to predict waterflooding for reservoirs under bottom-water conditions
BA 8406 891 T A super giant, Part 1; 3D modeling to enhance field development strategies; Midway-Sunset oil field, California
BA 8406 869 T A tale of six consecutive Tertiary depositional basins in northern Los Angeles County, California
BA 8406 877 T A three-dimensional volume estimation technique
BA 8409 1487 T A worldwide geochemical comparison of lacustrine crude oils
